

ML013

Windsor

Product Description

These highly versatile lanterns can be either be fitted to brackets, fitted onto posts / plinths or fitted to columns – although some of the smaller lanterns in the range may not be suitable.

Half versions of this – and other – lanterns are also available (see ML026 Half Windsor). Our half lanterns fit directly to a wall or partition and remains a popular lighting solution for doorways, reception rooms, halls and walled walkways. All of our 4-sided lanterns – both full and half versions – are hand-crafted from the best quality materials and processes. Laser cut panels and CNC machinery are utilised throughout the construction process to give the best quality possible.

Product Features
