

MI019

Piccadilly

Product Description

Our range of medium sized 6-sided (hexagonal), fabricated lanterns runs through from the Pimlico6, Piccadilly, Mayfair, to the Park Lane. This smaller lanterns is ideal for mounting on a wall fixed bracket (such as the Regency bracket). This beautifully finished lantern makes an ideal adornment to any home, office, restaurant or theatre. All of our 6-sided lanterns – both full and half versions – are hand-crafted from the best quality materials and processes. Laser cut panels and CNC machinery are utilised throughout the constructions process to give the best quality possible. But what makes our products special, is the attention to detail and hand finishing of our products by our team of dedicated, skilled craftsmen and women. We believe we have the largest range of cast / fabricated lanterns and associated products on the market but if you still can't find exactly what you are looking for then we can reproduce any design that you have.

Product Features
