

MI134 VIC I

Product Description

The Victoria Range covers the largest of our 6-sided Hexagonal fabricated lanterns. These highly decorative products are hand crafted in either brass or copper with a decorative, slotted chimney design.

All of these Victorian lanterns are hand-crafted from the best quality materials and processes. Laser cut panels and CNC machinery are utilised throughout the construction process to create the best possible quality. But what makes the Victorian range so special is their attention to detail and hand finishing by our highly skilled and dedicated team
